

# SYNOPSIS

## A North Korean Diary

### Tagebuch aus Nordkorea

My first visit to North Korea was in 2005, when the regime was still ruled by Kim Jong Il. The country had not yet admitted to possessing nuclear weapons, but I found it strange that Western media showed such disinterest towards this isolationist state: why were they ignoring a country that still ran concentration camps?

**Year:** 2016

**Run-Time:** 1 x 45 min.
