## Yigal Ozeri

### Yigal Ozeri

'This is not a photograph!'- this statement was to be found as an explanation under many of Yigal Ozeri's pictures. The Israeli artist is outstanding at creating hyper-realistic paintings with a captivating effect. His way of portraying light and his skills as a craftsman trigger both amazement and doubt. How are such deceptive copies of reality possible? Why would an artist create such paintings in an age of photography and a flood of digital images?
