

SYNOPSIS

Polly Adler

Polly Adler - Eine Frau sieht rosa

Polly Adler is working as a gossip columnist for «Confact»- magazine. Professional matters are definitely not the only turbulent area of her days, her private life also would most certainly provide for spicy articles: Polly's husband Max falls in love with another woman, while Max's divorce lawyer in turn loses his heart to Polly. Daughter Resi also discovers a passion: her new hair color. Sheer lunacy - Polly's everyday life. Besides all that, a seemingly everyday story that starts out as a simple press conference turns into a scandal of national proportions.

But Polly wouldn't be Polly if she wasn't to thrive while facing these challenges: Point One - The nation is saved. Point Two - Hair does grow again. Point Three - Men, oh well...
