

SYNOPSIS

Dirty Jobs

Dirty Jobs

Hard graft instead of society parties - in «Dirty Jobs», prominent personalities take part in a bold experiment. They exchange their luxury lifestyles for strength-sapping work and muck in on a variety of jobs. In the process they discover their limits, among other things as sewerage workers, dustbin men, forestry workers, industrial mountaineers, signalmen and mineworkers. The celebrities immerse themselves in the living environment of society's true heroes, who do the toughest jobs in Austria every single day.
