

# SYNOPSIS

## The Gift of a Day

### Der geschenkte Tag

The report «The Gift of a Day» follows six people as they go about their voluntary activities for one day - in a variety of quite different fields. «It is one of the most sensible things that I have ever done in my life!» says pensioner Elisabeth Benesch, who gives her time to people who themselves have little time left in the palliative care ward of her local hospital. And she herself is rewarded in return: «The experiences that I have had doing this are a blessing that nobody can take away from me,» she says.
