## Viennese Tradition 2.0

### Wiener Tradition 2.0

Something that sounds almost provocative is in fact a tradition within a tradition in Vienna. Perception, progress, demonstrating what you've learned and being open to new ideas: it's all part of the flow of life in Vienna. The film captures it before the next innovative phase takes hold and for as long as it exists. A journey around the world of Vienna, in sparkling and appreciative company - from Lobmeyer to Knize and Manner, from piano music to the Wienerlied.
