

SYNOPSIS

Paraguay - Heart of South America

Paraguay

Paraguayans are thoroughly positive and cooperative people. With this affirmative outlook on life, they have survived the highs and lows of the country's different forms of government. The serenity with which the people face even the most precarious situation is astounding and something not often seen among the peoples of the world. This documentary offers a somewhat different picture of the South American country - a land in which people can live free of the constraints and duties of the modern world and shows Austrian and Bavarian emigrants, who explain why they were drawn to this place out of all.

Year: 2006

Run-Time: 1 x 44 min.

Directed by Roswitha and Ronald Vaughan
