

SYNOPSIS

Iran - Generation Khomeini

Iran - Kinder der Revolution

In Iran today there is a generation that has grown up with the Islamic Revolution under Ayatollah Khomeini and that all its life has experienced the country almost always at odds with the rest of the world. Hardly anyone expects a true renewal of the country. Reformation is not possible, says an Iranian political scientist in exile, since most government critics have fled the country like him to escape arrest, or just to have a reasonable life. "Iran -- Generation Khomeini" has visited Iranian men and women to trace the sense of life of this generation.
