

SYNOPSIS

Night of the Salamander

Die Nacht der Salamander

The film reveals all the miracles and curiosities in the salamander world that, until now, were only known to a few experts in the field. In technical terms, the film team went to some lengths: Thermal image cameras show that salamanders are as cold as the night they inhabit, night vision cameras allow the viewer to watch them in the dark, magnetic resonance tomography and x-ray images show us the inside of their bodies.

Awards: EnviroFilm 2002: EnviroFilm Award

Year: 2001

Run-Time: 1 x 50 min.

Directed by Manfred Christ

Cosmos Factory for ORF in association with Docstar
