

SYNOPSIS

In Need of Men - The image of Men is Changing

Not am Mann - Männerbild im Wandel

What is a «typical man» or a «typical woman»? Which ideals have been linked to manliness and femaleness over the course of time? The fathers who used to fight in the Second World War passed on their ideals of manliness, orderliness, discipline and conscientiousness to their sons and grandsons. They started rebelling in 1968. At the same time, feminism and feminist movements were constantly present, followed by quota policy and Sex Discrimination Acts. Clear evidence that male confessions don't always sync with mental insights.
