

SYNOPSIS

China - The Largest City in the World

China - Die größte Stadt der Welt

Outside of China the largest city in the world is hardly known: Chongqing at the Yangtze Kiang is as big as Austria in size, has around 30 million inhabitants and continues to grow. Unlike the developed cities in the eastern coastal areas that are only growing slowly, the speed of growth and development is even rising in China's interior.

Year: 2016
