

SYNOPSIS

Europe's Border Rivers

Grenzflüsse in Europa

In this documentary, the fluid frontiers the Oder, the Pruth, the Tana, the Kupa and the Doubs are unveiled within Europe. Leaving from their source until reaching their estuaries, we follow their turbulent past and present, their currents and meanders as well as the beautiful landscapes they carve and have to put up with. But rivers can also be both common lifelines and radical separations for animals as well as humans.
