Molly & Mops - Café Mops

Molly & Mops - Café Mops

Molly has opened a small café with a personal touch in Vienna, which, thanks to her imaginative creations, has soon gained an excellent reputation. Once again Mops the dog is her helpful assistant. Molly receives a visit from Valerie, the diet-mad manageress of the «Neon & Blau» café opposite, which attracts far fewer customers than «Café Mops». Valerie is under huge pressure from her boss, Mrs. Rot, to do something to stop their flourishing competitor. A variety of different struggles develop between the «Neon & Blue» and «Café Mops»: mice hightail it through Molly's kitchen, and a fire threatens the eatery. On top of this, Molly actually experiences her first great love, which leads to a surprising and unexpected end. Azra thinks that she is pregnant, whilst Mops actually is, and gives birth to three pups.
