

SYNOPSIS

Tatort - Fatal Trust

Tatort - Tödliches Vertrauen

The prominent victim in Moritz Eisner's next murder case is Raimund Jakobi, the internationally successful physicist. In great demand as a brilliant scientist who conducts research for the automotive industry, the ruthless egocentric had made many enemies, both on a personal level and professionally. In the course of his investigations, Eisner ends up walking into a minefield of personal hurts and brutal economic competition.
