

SYNOPSIS

Paul Kemp - No Big Deal

Paul Kemp - Alles kein Problem

Paul Kemp is a mediator by profession. He is a trained psychologist and sociologist with a big heart and understanding of all of people's problems. The clients who come to his practice come from all sections of society and guide him into the field of human shortcomings, where he is required - and able - to demonstrate his skills as a mediator and arbitrator with what are often highly original solutions. But whilst he deals imaginatively and nimbly with the conflicts of others, Paul Kemp has very little grip on his private life and family, where things are increasingly getting out of hand. He has to face his wife's relationship with their neighbour, Christian, and has problems with his business partner, who has driven the company into debt and made a run for it. And Paul Kemp is also involved in a short-term relationship with Lisa that is developing into a long-term catastrophe.

Year: 2012

Run-Time: 13 x 48 min.
