Tonight at the Opera - Opus

Tonight at the Opera - Opus

The report of a unique evening, during which pop rock and classical music blended into one. The public was stirred by ballads such as «Eleven», «Vivian» and «Flying High». Naturally the night would not have been complete without the world-wide hit «Live is Life» as the symphonic highlight, of which in the past 25 years over 100 different versions have been produced. Since the Opuspocus Circus has never been one for standing still, a brand new song was also presented in the extraordinary atmosphere - «You Can Count On Me», a positive, up-tempo blend of pop rock and classical music...
