

# SYNOPSIS

## Meter by Meter - An Autumn with Martin Kusej

### Meter für Meter - Ein Herbst mit Martin Kusej

This is an unusual kind of portrait. At its heart is theatre professional, stage mastermind, pictorial provocateur and director, Martin Kusej, one of the most successful theatrical and operatic directors in the German-speaking world. The film depicts an autumn spent with him following his work and life as an artist - with no external commentary it shines a light into his world. With no stage management, genuinely, and above all without cliché, fragments of his life and vocation are pulled together to create an exciting portrait.

Kusej - his work and his impact make for fascinating viewing.
