## Women Step up to the Plate - The Other Face of World War I

### Schicksal in Frauenhand - Die andere Seite des Ersten Weltkriegs

In the crisis years of the First World War, women had to step into the shoes of the men who were at the front. That meant not only greater involvement with dangerous jobs but also managing shortages - both of raw materials and of everyday products. The greatest enemy back then was hunger. But these trials also offered the opportunity women had long demanded at a political level - the opportunity for women to participate equally in public life alongside men.
