

SYNOPSIS

New World - A Journey through Central Europe

Neue Welt - Eine Reise durch die Mitte Europas

The film is a richly photographed journey through old and new worlds across much of Central Europe, with lands known as Bohemia, Transylvania, Dalmatia, Galicia and many more. Through music, stories, anecdotes and legends, turn-of-the-century guidebooks and newspaper clippings, scenes from today, and films and photographs from the early 1900s a collage emerges of real people struggling, surviving, and living their lives between the worlds of tradition, change and upheaval.
