

SYNOPSIS

Occupation children

Besatzungskinder

"She's a Russian whore" is how they often badmouthed women who had relationships or children with Soviet soldiers during the postwar occupation. That is why many concealed the identity of their sons' or daughters' father; others cleared their conscience only shortly before death. Some children thought their father had died in the war. For the first time, we will hear the life and fate of children who were fathered by members of the Wehrmacht in territories occupied by Germany during World War II. And the children illicitly conceived with prisoners of war also gain the opportunity to speak in the documentary.
