Vino Santo

Wein-Kultur Vino Santo

In countless cultures, wine has been established as the beverage of choice when it comes to ritual acts. The cultural connection between wine and cult is rooted deep within us. Nowadays, oenologists, sommeliers and «winepopes» have taken the place of high priests. Wine-critics like James Parker are considered the new prophets and wine- literature such as Gambero Rosso is treasured as the new Holy Scriptures. The documentary embarks on a journey to look for the various manifestations of this phenomenon.
