

SYNOPSIS

Pictures in the Sky - The Art of Pyrotechnics

Bilder am Himmel - Die Kunst der Pyrotechnik

Fiery explosions flash across the night sky, while a thunderous rumbling accompanied by symphonic music leaves those watching struck with amazement. The work of master pyrotechnicians is an art. The planning, construction and choreography with music, as well as the organisation and design must all function precisely, if the audience is to be carried away. Pyrotechnician Christian Czech has reached the top of the profession: all over the world he creates fireworks displays with increasingly complex scenarios and scripts. A look behind the scenes at the day to day work of these directors of fire.

Year: 2008
