Hawaii - Inside Paradise

Hawaii - Inside Paradise

Hawaii. The palm-studded Pacific paradise is still the place that dreams are made of for many Europeans. The eight Hawaiian islands make up the 50th state of the USA but at the same time constitute a completely distinct, mythical cosmos. Seven million tourists travel to the islands every year to visit the most prominent sights. The documentary series «Hawaii - Inside Paradise» reveals aspects that the majority of them do not see, and uncovers the fascinating landscapes and magical places behind the classic picturepostcard views.
