## The Last Nomads

### Die letzten Nomaden

«The Last Nomads» features the greatest traditional journeys left on Earth as seen through the eyes of the people who still travel on them. From the Zagros Mountains of Iran to the frozen wastelands of northern Siberia, the Sahara to the Himalaya, these beautifully filmed documentaries give a unique insight into the very last human journeys still being travelled as they have been for thousands of years. Join the travellers over four episodes on their long and hard way when they try to reach several destinations all over the world. This series captures these great human odysseys as they rapidly fade into extinction.
