

# SYNOPSIS

## Pol-Ares - On the Way to Mars

### Pol-Ares - Auf dem Weg zum Mars

It's supposed to happen in 20 to 30 years. The first man sets foot on the Red Planet, Mars. All the world conducts research and development to that end. In Austria, the Austrian Space Forum is in charge. One of their developments, for example, is the space suit Aouda X. For one week, a Mars landing was simulated at the Rio Tinto in Spain. The area is a semidesert and has Martian features. In the process, the Eurobot, the Marscar of the European Space Agency with a price tag of 1.5 million, was field tested for the first time.

**Year:** 2012
