## Miracles

### Wunder

Since the appearance of the Blessed Virgin, Placanica has become a place of pilgrimage, in which numerous «miracle cures», heavenly scents, prophetic speeches, levitation and visions are said to have occurred. The Vatican has now decided to appoint a scientific commission to investigate the «miracles», as more and more people are visiting the place to experience a wonder. The film accompanies pilgrims, many of whom have travelled thousands of kilometres in hope of receiving a sign from God.
