

SYNOPSIS

Vienna's Waters

Wiener Wässer

This three-part documentary tells the story of the rivers Danube, Old Danube and the Vienna River that flow through the city of Vienna.

The Vienna River is the most important landmark in western Vienna. It connects Schönbrunn Palace with the The Vienna Naschmarkt and the Stadtpark. For a long time, the Danube was an irrepressible river that made its way wildly through Vienna. As a result of regulation the Danube Canal was created.
