## Nature in the Garden - The Naked Truth

### Natur im Garten - Die nackte Wahrheit

As usual, Universum shows the living creatures and nature in both gardens in impressive images through the course of the seasons, including all of those animals that we all know, but hardly ever get a glimpse of. The stories of the animals and the people, their misadventures and successes, are closely interwoven. This is a film that will make you smile, as well as one that will make you want to go out and experience the nature in your own garden.
