

SYNOPSIS

Genghis Khan - Rider of the Apocalypse

Dschingis Khan - Reiter der Apokalypse

Genghis Khan, ruthless leader of the Mongols and sovereign over the vastest empire ever ruled by a single man, was both god and devil - not just in the Middle Ages, but for centuries to come. Luxurious historical reconstructions, cleverly enhanced with state-of-the-art CGI and compositing techniques, make up the flesh of this program. The tone will be serious, yet exciting science - not only archaeology at scenic ancient sites but also the tracing of living modern remnants of the ancient Mongol culture.
